

Please read the following carefully. Also, please follow the instructions of staff that will be present to provide further direction and assistance.

Parking

The MUS parking lot (parent/student and visitor parking) is located on the right side of the upper school driveway, along the athletic fields. The entrance is located just a couple of hundred feet after reaching the top of the driveway from the gate. The opening is only for entering the lot; please be aware, this entrance has a tire spike device that will engage if you attempt to exit from this opening.

The parking lot exit is located at the end of the lot, by the bleachers. The opening is only for exiting the lot; please be aware, this exit has a tire spike device that will engage if you attempt to enter from this opening.

Drop-off/Pick-up

If you are not parking, but dropping-off or picking up students, continue past the parking lot entrance up toward the turn-around. Stay in the outside lane (right lane) of the turn-around and continue all the way around and then down the concrete lane that borders the small grass field. (There are actually two lanes, but only use the right lane for picking-up and dropping-off. The left lane is for cars to be able to pass.)

Please progress forward as far as you can before stopping to let students out of the car. For pick-up, please do the same and progress as far down the concrete lane as you can before stopping to wait for your child. Do not stop in the left lane since it is for passing cars only.

Thank you for your cooperation and understanding as we work toward our common goal of providing a safe environment for student arrival / departure.
